ENERGY SERVICES

# Mission And Vision

## Mission

To empower our clients with world-class planning, drilling, completion, and intervention service. Delivered by experienced professionals and supported by high-quality equipment to maximize operational efficiency and enhance overall asset value.

## Vision

To be the premier services partner, distinguished by safety leadership, technical innovation, and unwavering reliability.

# What We Do

As IOCs exit, local companies are increasingly filling the void, acquiring divested assets and expanding their operations. This shift presents opportunities for indigenous firms like NodalQuest to play a more significant role in Nigeria's energy sector, provided they navigate the existing challenges effectively

01

## Strategic Business Shift

Reshaping the energy landscape.

02

## Opportunity for Indigenous Firms

Take over divested assets

03

## Environmental Factor

Environmental cleanup and compensation

# <<< Our Services

01

NodalQuest Energy Services delivers comprehensive well planning and drilling solutions tailored to meet complex reservoir and formation challenges

02

Our well-completion capabilities ensure productivity, flow assurance, and long-term well integrity

03

We supply highly skilled personnel across disciplines including drilling, completions, HSE, QA/QC, and project management

**NODALQUEST**  
ENERGY SERVICES

## Our Services

4

Our well-completion capabilities ensure productivity, flow assurance, and long-term well integrity

5

NodalQuest is a trusted distributor of high-performance oilfield, material, tools and equipment

# Our Management

Our leaders bring together decades of hands-on experience across upstream and downstream operations, energy infrastructure development, and environmental stewardship. With a clear strategic vision and a focus on operational integrity, the management team ensures that every project aligns with our core values of safety, efficiency, and client satisfaction.

# Our Goals

01

NodalQuest Energy Services aims to provide cutting-edge, environmentally responsible energy solutions tailored to meet the evolving needs of clients across various industries. This includes promoting the adoption of renewable energy sources, energy efficiency, and smart grid technologies.

02

The company is committed to achieving operational excellence through the consistent application of industry best practices, safety compliance, and continuous improvement processes.

03

NodalQuest Energy Services seeks to grow its market presence by building strategic alliances with technology providers, industry stakeholders, and government bodies. This involves expanding into new markets while maintaining strong client relationships and delivering value-driven services.

## Our Industry

We support upstream, midstream, and downstream operations with services such as pipeline construction, flow station maintenance, instrumentation, and field logistics.

Our team has extensive experience working in both onshore and swamp terrains, ensuring safe and efficient execution in challenging environments.

## HSE POLICY

At **NodalQuest Energy Services**, the health and safety of our people, clients, communities, and the environment are fundamental to our operations. We are committed to conducting all our activities in a manner that protects human life, preserves the environment, and promotes sustainable development.

We recognize that strong HSE performance is key to operational excellence and business success. Therefore, our HSE policy is based on proactive risk management, continuous improvement, and a culture of accountability at all levels of the organization.

# Quality Control

At **NodalQuest Energy Services**, quality is more than a benchmark — it is a commitment woven into every aspect of our operations. We are dedicated to delivering services and solutions that meet and exceed client expectations, regulatory standards, and industry best practices.

Our Quality Assurance (QA) framework ensures consistency, reliability, and excellence across all projects, from engineering and procurement to installation and field operations.

# Thank You!

We respect your valuable time with NodalQuest Energy Services!
